A Freehold guarded community

TAMAN SAUJANA HEIGHTS
Exclusivity
The perfect place to build your nest

The air is serene, with only the sounds of the swaying grass embraced by the gentle breeze. Sitting on high ground, our magnificent Bungalows and Semi-Detached overlook the surrounding neighbourhood. The exquisite and ultramodern architecture of our houses immediately astounds you, leaving you breathless and admiring in awe of its beauty and colossal size.

Coupled with the fact that our Taman Saujana is a Guarded development, the Bungalow and Semi-De houses located within the perimeter wall with 24-hours security is truly a safe sanctuary.

It is a place where you can escape from the hustle and bustle of the urban jungle, allowing you to unwind and relax from a hard day's work. It is also your personal office, granting you the peace and quiet that you need to strategize your next move in the corporate world. If you like the house, we are certain that your family will love it even more! Happy laughter will echo through these walls and sad tears will also be shed. But through it all, family bonds will be strengthened and many happy memories will be forged. Priceless memories.

It is indeed the perfect place to build your family nest.
